Date of Birth: 1985-06-15

Gender: Male

Address: 123 Health Lane, MedCity, IN 600021

Contact: +91-9876543210 | john.doe@example.com

Insurance: MedShield Insurance Co. (Policy No. INS45678901)

Summary of Visit:

On 2025-04-20, Johnathan Doe, a Male born on 1985-06-15, presented to our facility with acute abdominal pain. The patient's relevant medical history includes hypertension, type 2 diabetes, and previous gallstone surgery. During evaluation, vital signs were stable and initial laboratory and imaging studies were within expected ranges. The patient's known allergies to penicillin and peanuts were documented and managed appropriately.

Treatment and Medications:

The patient was treated with paracetamol, metformin, and pantoprazole during their stay. All prescribed therapies were well tolerated, and no adverse drug reactions were observed.

Discharge Condition and Instructions:

By the time of discharge, Johnathan Doe showed significant improvement, with resolution of acute symptoms. The following instructions were provided:

- Continue current medications as listed above.
- Schedule a follow-up appointment in two weeks or sooner if symptoms recur.
- Monitor for any new or worsening symptoms and seek medical attention if needed.
